INTRODUCTION

Highly motivated computer science student with an interest in problem-solving and a keen inclination towards web development using the "MERN" stack. Excited to use my technical skills and creativity to create innovative solutions that improve user experiences and make a meaningful impact.

EDUCATION

Degree	Institute/Board	CGPA/Percentage	Year
B.E. CSE	Chitkara University	9.59	2020-Present
Senior Secondary	CBSE	89.20%	2019
Secondary	CBSE	9.2	2017

PROJECTS

- **Places.io**
A multi-user travel blogging web app for travel enthusiasts to share their incredible experiences and breathtaking photographs.
– **Tools & technologies used:** MERN Stack
- **Mausam**
A website to fetch weather details of a place using openWeather API.
– **Tools & technologies used:** React
- **Portfolio Website**
A portfolio website built using the basic knowledge of web development.
– **Tools & technologies used:** HTML, CSS, JavaScript

TECHNICAL SKILLS

- **Programming:** C/C++, Java, Python, JavaScript, SQL
- **Tools & OS:** Git, Windows, Node
- **Libraries/Frameworks:** React, Express
- **Web Skills:** HTML, CSS, JavaScript, MERN stack

KEY COURSES TAKEN

- Data Structures
- Algorithms
- DBMS
- Computer Networks
- Object-Oriented Programming System
- Operating Systems

CERTIFICATIONS

- Introduction in Web Technologies *Coding Ninjas*
 - React, NodeJS, Express and MongoDB - The MERN Fullstack Guide *Udemy*
 - Mastering Data Structures and Algorithms using C and C++ *Udemy*
-
